Here to help your business grow

Would you like to increase your livestock, improve genetics across the breed or enhance production, all without dipping into your cash reserves?

Whether it's changes in politics or environmental surprises, uncontrollable factors mean that livestock prices are constantly fluctuating. Through **Shire Leasing's Finance For Farms Team**, you can acquire the livestock and assets you need to grow your business, with the advantage of knowing the fixed payments won't change.

Finance for British Farmers

Shire Leasing offer a dedicated team of experts to support you through the process.

In 2014, the British Business Bank invested £40m into Shire Leasing. With funding from traditional banks and lenders becoming ever more difficult, **Finance For Farms** work tirelessly to assist British farmers with alternative finance.

With an own book of over £100m, **Shire Leasing** will look at each farm on it's own merits and will consider financing almost all farming related assets required for your business.

Their team of experts and friendly advisors understand the farming business and will talk to you in terms that make sense.

How our finance options help farmers like you:

- ✓ Pay for the herd while they generate milk
- ✓ Fixed rates and payment options
- ✓ No major upfront costs

Business use customers only

Shire Leasing PLC is authorised and regulated by the Financial Conduct Authority for certain types of consumer credit lending and credit related activities that are regulated under the Consumer Credit Act 1974 and by the Financial Services and Markets Act 2000.
